PROFESSIONAL SUMMARY

Software Engineering graduate of Near East University who builds full-stack and AI-powered applications with Python, JavaScript/TypeScript and Java. Hands-on experience with FastAPI, Node.js, React and LLM integration, with internship and training experience in software development, testing and data reporting. Quick learner and strong team player.

WORK EXPERIENCE

Software Development Trainee **August, 2026**
Near East University IT Center - Nicosia, North Cyprus
- Built CleanCut, a Node.js app that uses Whisper speech-to-text to detect and bleep profanity in videos
- Built a Next.js/TypeScript timetable builder with Excel import, drag-and-drop scheduling and clash detection

Software Engineering Intern **June, 2025 - August, 2025**
Hakeem Engineering Company Ltd. - Khartoum, Sudan
- Developed and tested features for the company's project tracking software
- Built reports, dashboards and data analyses to support project operations
- Handled requirements analysis, documentation and IT support

PROJECTS

- **Recrify: AI Hiring Tool** (React, FastAPI, PostgreSQL, WebSockets - GitHub): scores resumes against job requirements with an LLM, runs live AI interviews and ranks candidates for HR
- **Web App Performance Tester** (Python): load and stability testing with CSV and PDF reports
- **Activity & Project Management System** (Java): refactored a legacy Java EE app into a layered design

EDUCATION

Bachelor of Software Engineering **March, 2022 - June, 2026**
Near East University - Nicosia, North Cyprus

KEY SKILLS

- Python, Java, C++, JavaScript, TypeScript, SQL
- FastAPI, Flask, Node.js, Express
- React, Next.js, Tailwind CSS
- PostgreSQL, SQLite
- LLM Integration
- Git, GitHub & Software Testing

ADDITIONAL INFORMATION

- Representative of Software Engineering at Sudanese Student Association, Near East University (2024 - 2025)
- Completion: AI Summer Sprint Bootcamp under Google Developer Group, Near East University (July 2025)
- Participated in the webinar "The Future of Logistics: Smarter, Greener, Faster" By UniAthena (18-July, 2025)
- Portfolio: yaseen369.github.io/Ys-Portfolio
- Languages: Arabic (Native), English (Fluent), Turkish (Fluent)
